1. Prologue

This user guide provides a clear and accessible technical overview of how to use the Trayport Joule application, including connectivity instructions.

It is designed to help you with the setup and use of the trading platform, offering easy-to-follow guidance on connection and configuration.

The requirements for installing the application are as follows:

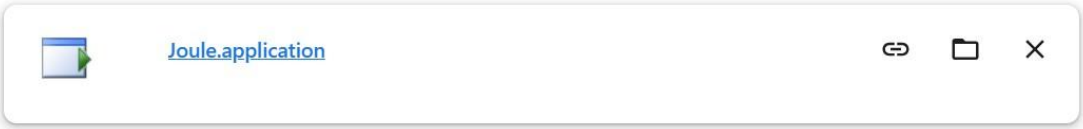
Specifications	Operating System	.NET Framework	CPU	RAM Available to Joule	Graphics Card (GPU)
Recommended Joule is capable of delivering optimal performance	Microsoft Windows 8.1 Microsoft Windows 10	4.7.2 Also supported: 4.7.1 4.7 4.6.2	Better than Intel Xeon W3520 processor (2.66 GHz or above), Intel i5-570, or equivalent processor	More than 2GB available to Joule and more than 25% of the machine's RAM available at all times.	Better than NVidia NVS 310 video card
Minimum Joule performance may suffer. Trayport recommends upgrading any components that fall in to this category		4.6.1	Intel Xeon W3520 processor (2.66 GHz or above), Intel i5-570, or equivalent processor	2GB available to Joule and more than 25% of the machine's RAM available at all times.	NVidia NVS 310 video card

2. Installation

In order to start the setup of the application click on the following link.
It should start the download process in a few seconds.

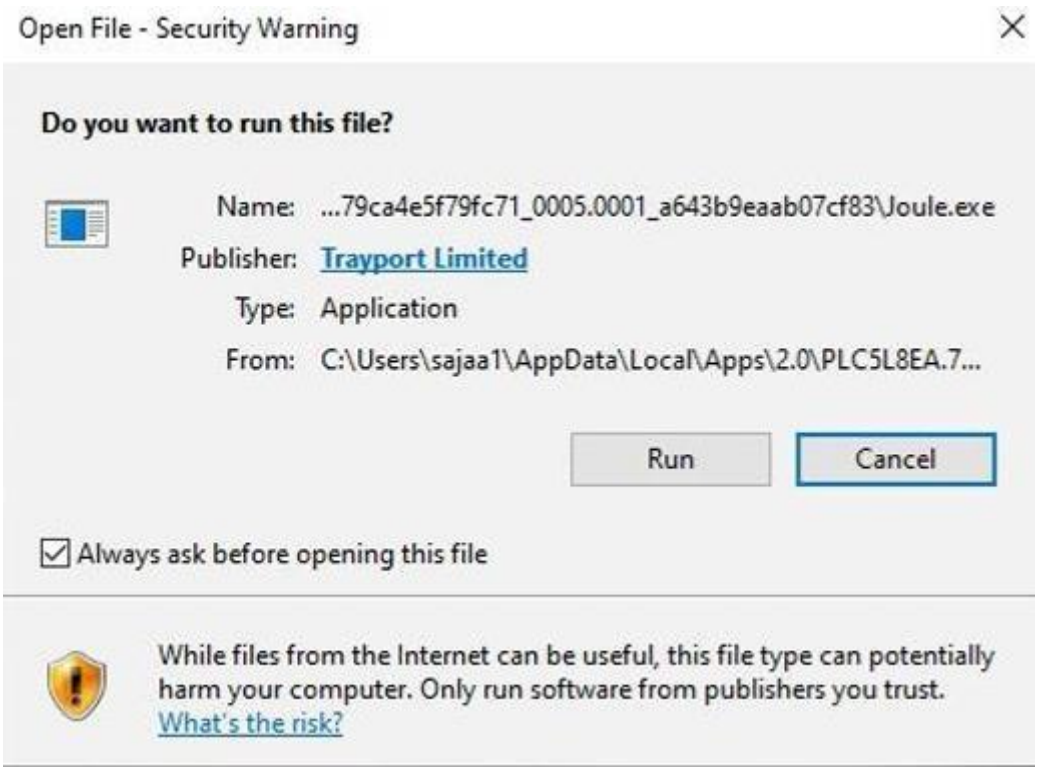
https://joule.cdn.trayport.com/joule/a9706775-47a0-e111-b5f3-00155d03ae7c/050976ab-2691-469e-ab73-fe44d0fbdee3/TrayportJoule.appinstaller

- Click on the downloaded „Joule.application”



• Click on „Install”

• Next up an installation window will appear, when it finishes you should press „Run”



- After finishing the download launch the app then you have to accept the legal notice

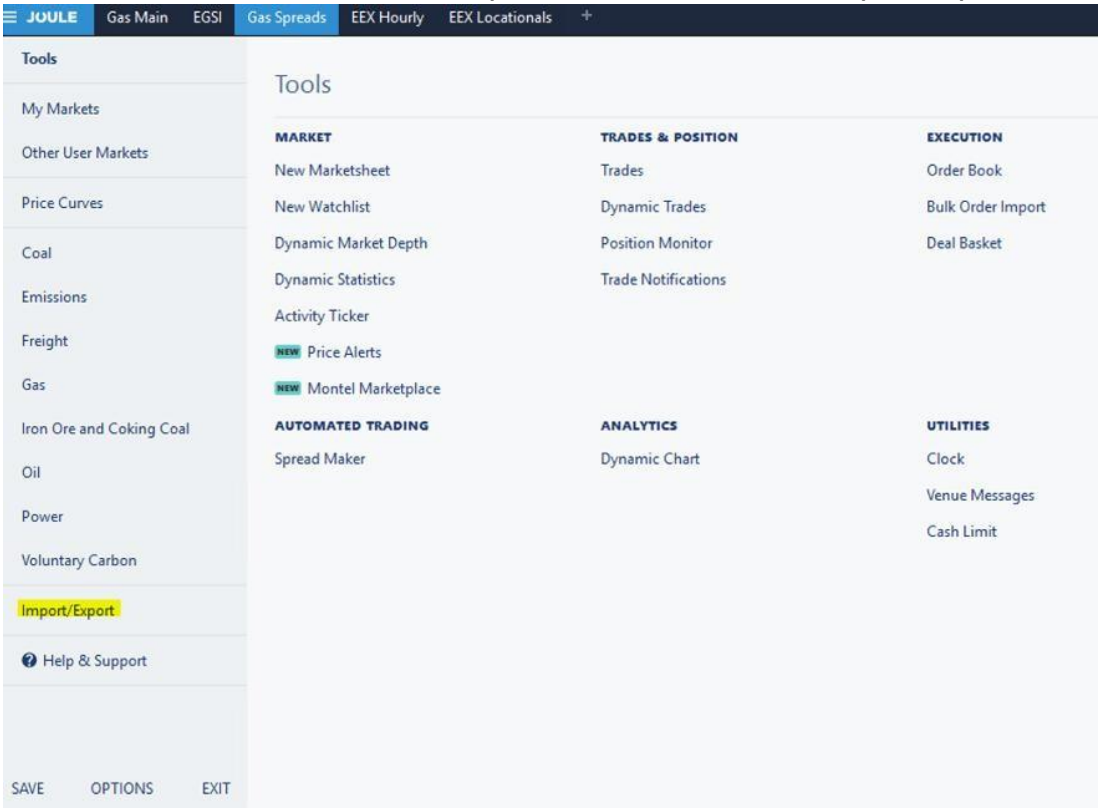
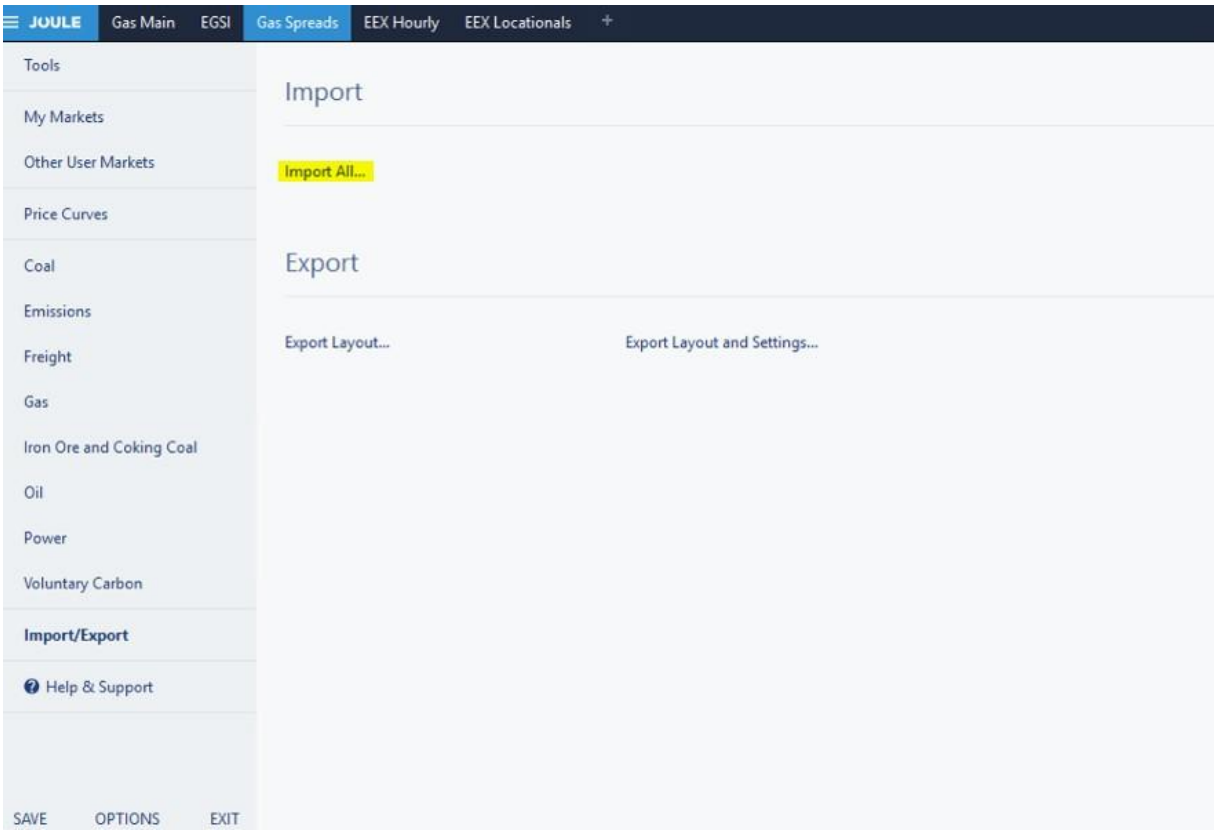
4. Workbook import

For the workbook file, you should have received it as an attachment to the login details email. Alternatively, you can download it from the website(Trading System - CEEGEX) or use the link below for automatic download.
(https://ceegex.hu/uploads/Riportok/CX_PROD_Joule_worksheets_2026.zip)

• Click on the Joule menu in the top left corner, then click „import/export”.



• Now click on the „Import all…” option



- Select one of the workbooks from the zip file you have downloaded in the previous step.

  -CX-PROD-Joule-2026.jgsp → Joule users
  -CX-PROD-JouleDirect-2026.jgsp → Joule Direct users

- Once the workbook is imported you are ready to trade, also you can customize the workbook after you imported it however you want.
