

CEEGEX User Guide for Joule Setup

CEEGEX Spot Market

1. Prologue

The following user guide has been created with the intention to make an easily accessible technical overview about how to run Trayport Joule Direct application, while also providing a connectivity guide.

The guide is intended to help with the use of the Trayport Joule application. It will give you easy to understand instructions on the connection and setup of the trading platform.

The requirements for the installation of the application are the followings:

Specifications	Operating System	.NET Framework	CPU	RAM Available to Joule	Graphics Card (GPU)
 Recommended Joule is capable of delivering optimal performance	Microsoft Windows 8.1 Microsoft Windows 10	4.7.2 Also supported: 4.7.1 4.7 4.6.2	Better than Intel Xeon W3520 processor (2.66 GHz or above), Intel i5-570, or equivalent processor	More than 2GB available to Joule and more than 25% of the machine's RAM available at all times.	Better than NVidia NVS 310 video card
 Minimum Joule performance may suffer. Trayport recommends upgrading any components that fall in to this category		4.6.1	Intel Xeon W3520 processor (2.66 GHz or above), Intel i5-570, or equivalent processor	2GB available to Joule and more than 25% of the machine's RAM available at all times.	Nvidia NVS 310 video card

2. Installation

In order to start the setup of the application click on the following link. It should start the download process in a few seconds.

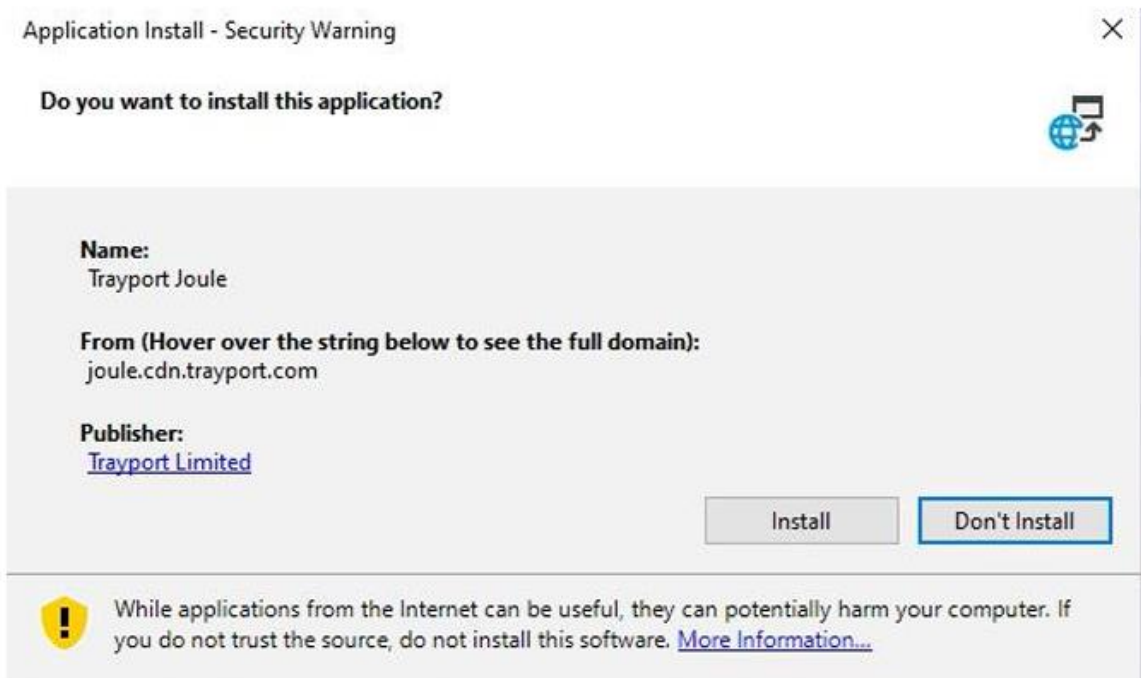

<https://joule.cdn.trayport.com/joule/593433d6-47a0-e111-b5f3-00155d03ae7c/050976ab-2691-469e-ab73-fe44d0fbdee3/AnyCPU/Joule.application>

- Click on the downloaded „Joule.application”

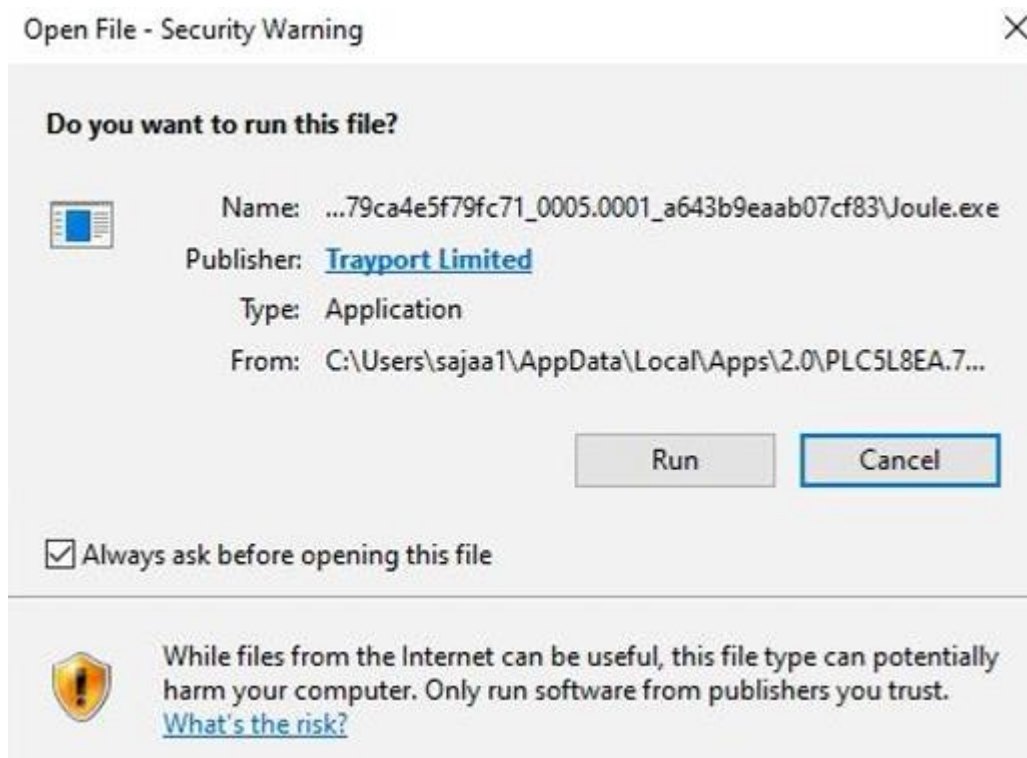

- Click on „Install”

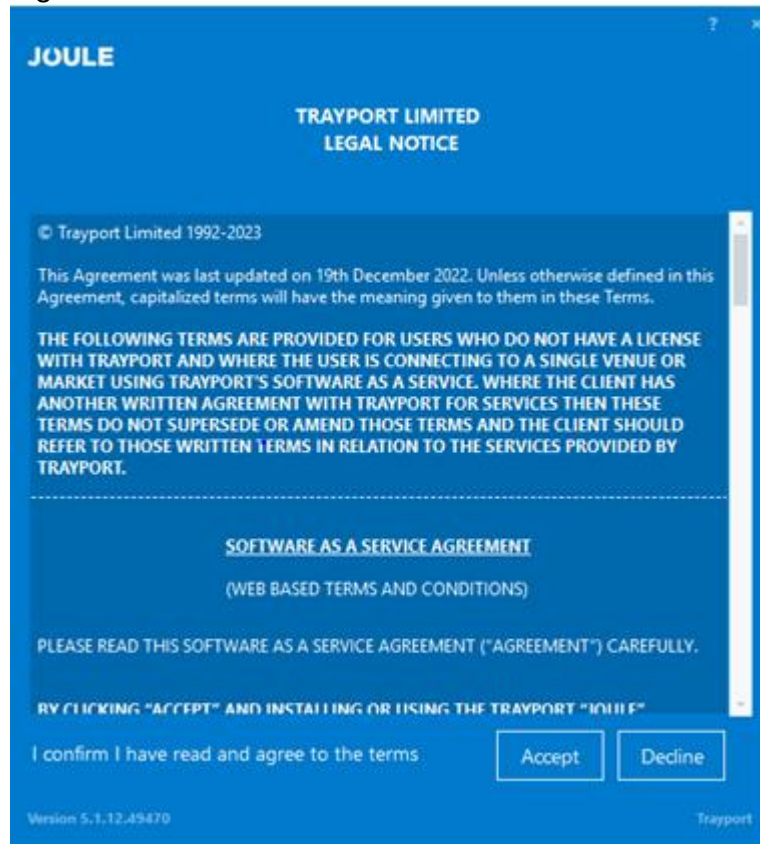

- Next up an installation window will appear, when it finishes you should press „Run”

- After finishing the download launch the app then you have to accept the legal notice

3. Connection

The following part will guide you through the connection process. Start with entering your credentials(username and password), then continue with the server name which for production is **jouledirect** for Joule Direct users and **gvprod.hudex.hu:12997** and for testing purposes **jouledirecttest** for Joule Direct users and **gvdev.hudex.hu:12997** for standard Joule users.

Trayport

The credentials mentioned earlier should have been already provided by CEEGEX Market Operation. In case you did not receive the credentials or if you face any problem regarding the connection contact us at mo@ceegex.hu or (+36) 1 304 3241 .

The next step is importing the CEEGEX joule workbook:

- Click on the Joule menu in the top left corner, then click „import/export”.

The screenshot shows the 'Joule' menu open in the CEEGEX interface. The top navigation bar includes 'Joule', 'Gas Main', 'EGSI', 'Gas Spreads', 'EEX Hourly', and 'EEX Locational'. The 'Joule' menu is expanded, showing a list of tools on the left and a grid of options on the right. The 'Import/Export' option is highlighted in yellow.

Tools	MARKET	TRADES & POSITION	EXECUTION
My Markets	New Marketsheet	Trades	Order Book
Other User Markets	New Watchlist	Dynamic Trades	Bulk Order Import
Price Curves	Dynamic Market Depth	Position Monitor	Deal Basket
Coal	Dynamic Statistics	Trade Notifications	
Emissions	Activity Ticker		
Freight	NEW Price Alerts		
Gas	NEW Montel Marketplace		
Iron Ore and Coking Coal	AUTOMATED TRADING	ANALYTICS	UTILITIES
Oil	Spread Maker	Dynamic Chart	Clock
Power			Venue Messages
Voluntary Carbon			Cash Limit
Import/Export			
Help & Support			

SAVE OPTIONS EXIT

- Now click on the „Import all...” option

The screenshot shows the 'Import' and 'Export' sections in the CEEGEX interface. The 'Import' section is active, showing the 'Import All...' option highlighted in yellow. The 'Export' section is also visible, showing 'Export Layout...' and 'Export Layout and Settings...' options.
